Attachment to Notice of Non-Compliant Appeal Brief

1. This notice/letter is in response to the "Response to Notice of Non-Compliant Appellants' Brief" filed May 29, 2007.

Basis for the Notice

2. 37 CFR 41.37(c)(1)(v) states the following:

(c)(1) The brief shall contain the following items under appropriate headings and in the order indicated in paragraphs (c)(1)(i) through (c)(1)(x) of this section, except that a brief filed by an appellant who is not represented by a registered practitioner need only substantially comply with paragraphs (c)(1)(i) through (c)(1)(iv) and (c)(1)(vii) through (c)(1)(x) of this section:

(v) Summary of claimed subject matter . A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

3. Specifically, note the provision that sets forth that the brief must contain a "concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters".
4. It is noted that the Board of Patent Appeals and Interferences remanded the case on November 3, 2006 such that this issue could be corrected.
5. It is also noted that the substitute "Summary of the Claimed Subject Matter" submitted on May 29, 2007 does not utilize the reference characters of the drawings to refer to the various claim elements of the independent claims.

Examiner suggests using a format (for each of the independent claims in the case) like that used by the Examiner in the Examiner's Answer mailed April 14, 2006, on pages 2-3

Art Unit: 3722

thereof, wherein Examiner mapped the independent claim 12 to the originally-filed specification in a way that is easy to quickly determine wherein support for each claim limitation lies, which paragraphs from the Examiner's Answer are repeated hereinbelow for Applicant's convenience:

Furthermore, to quickly facilitate understanding of the claimed invention, Examiner is providing a copy of at least the broadest independent claim (claim 12) with reference element numbers or other support information included in parenthesis (where possible) to correspond to the claim limitations. See Figures 8 and 6.

Claim 12 (Original). A sheet metal router apparatus (70), comprising:

a guide (62), fastened to the sheet metal (50) by fasteners (58) drilled through the sheet metal (the feature of the fasteners 58 extending **through** the sheet metal is not shown in the drawings, but does have support in at least original claim 12);

a platform (64), mounted on the guide (62); and

a router (60) having a vertical adjustment (73, 75, see page 5, the paragraph beginning on line 15), mounted on the platform (64), wherein an operator adjusts the router vertical adjustment (73, 75) for a desired depth-of-cut and moves the platform (64) continuously along the guide (62) to make a desired cut.

Details on How to Correct the Non-Compliant Brief

6. NOTE that, as set forth in MPEP section 1205.03, in response to the Notice of Non-Compliant Appeal Brief under 37 CFR 41.37, when the Office holds the brief to be defective solely due to appellant's failure to provide a summary of the claimed subject matter in the manner as required by 37 CFR 41.37(c)(1)(v), **an entire new brief** need not, **and should not, be filed**. Rather, a paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v) will suffice. Failure to timely respond to the Office's requirement will result in dismissal of the appeal. See also MPEP sections 1215.04 and 711.02(b).

The paper that is filed providing **only** a proper summary of the claimed subject matter should make it clear that this is a replacement section of the Summary of the Claimed Subject Matter as required in response to this Notice of Non-Compliant Appeal Brief.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erica E. Cadugan whose telephone number is (571) 272-4474. The examiner can normally be reached on M-F, 6:30 a.m. to 4:00 p.m., alternate Fridays off.
